 - I. Given the wide variation in event set-up requirements, recommendations on appropriate venues will be made by the NSU staff member who is reviewing your request to host an event.
 - II. To allow for appropriate six-foot social distancing of all participants, event space capacity will be limited with a targeted threshold of no more than 33% of overall capacity, or as determined by event set-up requirements.
- B. Outdoor events
 - I. Events occurring outdoors should ensure set up and space usage allow for appropriate social distancing of participants.
 - II. Outdoor events all must comply with attendance tracking requirements outlined below.

C. Track and document attendance

- I. NSU has implemented a campus event contact tracing approach in order to support the State Health Department with their contact tracing efforts should an attendee become ill.
- II. In order to implement the possible need for contact tracing, it is required that all events use an electronic attendance tracker containing event participant name and phone number, for both NSU community members and non-NSU attendees.
- III. The recommended method for tracking attendance for student organizations and departmental events will be HawkLife. All events will be required to submit an event request via the [Campus Event Request Form](#) that will be approved pending approval of the event's [NSU Campus Events Safety Plan](#).
- IV. For non-NSU attendees, a Google Form & scannable QR code will be emailed to the event planner and must be filled out by every non-NSU event attendee.
