Independent Auditor's Report

Board of Regents
Regional University System of Oklahoma
Northeastern State University
Oklahoma City, Oklahoma

Report on the Financial Statements

We have audited the accompanying financial statements of Northeastern State University (the University), a department of the Regional University System of Oklahoma (RUSO), which is a component unit of the State of Oklahoma, and its discretely presented component unit, as of and for the year ended June 30, 2022 and the related notes to the financial statements, which collectively comprise the University's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective position, of the University, as of and for the year ended June 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the University and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note A, the financial statements of the University are intended to present the financial position, the changes in financial position, and, where applicable, cash flows of only that portion of RUSO that is attributable to the transactions of the University. They do not purport to, and do not present fairly the financial position of the RUSO as of June 30, 2022, the changes in its financial position, or its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

The University's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the University's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the University's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the University's basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the statement of modernization costs-uncompleted, financial data schedules, and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated October 31, 2022 on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Audit Standards in considering Northeastern State University's internal control over financial reporting and compliance.

Northeastern State University
Management's Discussion and Analysis (Unaudited)
June 30, 2022

Introductory Synopsis

Founded on the rich educational heritage of the Cherokee Nation, the campuses of Northeastern State University (NSU) provide its diverse communities with lifelong learning through a broad array of undergraduate, graduate, and professional doctoral degree programs. With high expectations for student success, the University provides quality teaching, challenging curricula, research and scholarly activities, immersive learning opportunities, and service to local and professional communities. The institution's dedicated faculty and staff offer a service-oriented, supportive learning environment where students prepare to achieve professional and personal success in a multicultural and global society.

In spite of the difficulties we have experienced over the past couple of years, we look to the future with a renewed sense of optimism, a strong commitment to our mission and with joy knowing that we have the opportunity through education to change for the better the individuals and communities we serve. NSU will do its part to educate students as they prepare to fill the gaps in critical occupations in Oklahoma.

At the March meeting of the Oklahoma State Regents for Higher Education our request to offer an undergraduate degree in Mechanical Engineering at the Tahelquah and Broken Arrow campuses was approved. Additionally, OSRHE approved our new Master of Arts in Public Relations. We look forward to great success in these new programs.

In May we hosted five commencement ceremonies where over 1,100 undergraduate and graduate degree candidates were appropriately recognized. Inspirational comments were heard from Cherokee Nation Chief Chuck Hoskin, Deputy Chief Bryan Warner and Chancellor Allison Garrett. The total combined graduates for fall and spring produced over 1,800 degrees. We are making significant contributions to Oklahoma's critical occupation needs.

The ribbon cutting for Wilson Hall held this spring was amazing. The renovation that has been in the works for 10 years is now substantially complete and the new home for the College of Liberal Arts is stunning.

We also celebrated with the Battenfield and Carletti families as we opened the new Investment Lab in the College of Business and Technology. This lab is a great addition to the educational and immersive experiences that we can provide to our students.

Facility programming and design is on-going for NSU's Oklahoma College of Optometry. There continues to be a lot of excitement centered around the much-anticipated state of the art facility. We need a building that matches the caliber and reputation of the Oklahoma College of Optometry.

Northeastern State University
Management's Discussion and Analysis (Unaudited)
June 30, 2022

Overview of Financial Statements and Financial Analysis

The financial statements of Northeastern State University are presented for the fiscal year ended June 30, 2022. The most recent financial statements of the NSU Foundation are included in this presentation under the heading *Component Unit*. Financial analysis data is presented within this discussion for fiscal years 2021 and 2022.

Management's discussion and analysis is designed to focus on current activities, resulting changes, and current known facts. It should be read in conjunction with the University's financial statements and footnotes. These financial statements are prepared in accordance with Governmental Accounting Standards Board (GASB) principles and focus on NSU as a whole.

Statement of Net Position

The Statement of Net Position presents current and non-current assets, liabilities and net position (assets minus liabilities) as of the end of the fiscal year. The purpose of the Statement of Net Position is to present a fiscal snapshot of the university.

Net position is divided into three major categories. The first, Investment in Capital Assets, Net of Debt, provides the institution's equity in property, plant and equipment. Expendable restricted net position is available for expenditure by the university, but must be spent for purposes as determined by donors and/or external entities. Unrestricted assets are available to the university for any lawful purpose.

Statement of Net Position		
(Thousands of Dollars)		
	2022	2021
Assets:		
Current assets	\$ 55,794	\$ 50,523
Capital assets, net	150,331	144,547
Other assets	8,097	13,272
Total Assets	\$214,222	\$208,342
Deferred Outflows of Resources:		
Deferred charge on OCIA lease restructure	\$ 211	234
Liabilities:		
Current liabilities	\$ 13,201	\$ 10,326
Noncurrent liabilities	37,699	41,257
Total Liabilities	\$ 50,900	\$ 51,583
Deferred Inflows of Resources		
Deferred gain on OCIA lease restructure	\$ 1,366	\$ 368

Northeastern State University
Management's Discussion and Analysis (Unaudited)
June 30, 2022

Net Position:		
Invested in capital assets	\$115,412	\$107,811
Restricted, expendable	17,718	20,297
Unrestricted	29,037	28,517
Total Net Position	\$162,167	\$156,625

Total net position of the University increased \$5.5 million during fiscal year 2022. This change can be seen with increases in current cash, current accounts and lease receivables, endowments and capital assets along with decreases in noncurrent cash, interest receivable, inventories and current note receivables.

Capital assets are reflected net of depreciation. A schedule of capital assets including additions and retirements can be found in Note E to the financial statements. Net capital assets increased \$5.7

million during fiscal year 2022. Majority of this change is due to an increase in construction in progress, intangible assets and decrease in equipment and library. The chart below provides further information.

Change in Capital Assets	2022	2021
Additions: Buildings	\$ 1.4 million	\$.3 million
Construction in Progress	9.8 million	7.7 million
Art	.7 million	0
Equipment	(2.5 million)	(.7 million)
Land and Infrastructure	.07 million	0
Library Materials	(.4 million)	(.3 million)
Intangible Assets	2.8 million	
Deduction: Net Depreciation	(6.1 million)	(7.7 million)
Net Fiscal Year Change	\$ 5.7 million	(\$.7 million)

Northeastern State University
Management's Discussion and Analysis (Unaudited)
June 30, 2022

Liabilities include both current liabilities, such as accounts payable, and noncurrent liabilities, such as bond and lease obligations. Total liabilities decreased \$.7 million during fiscal year 2022. Of this amount current liabilities increased \$1.9 million, majority coming from increase in accounts payable and increase in current portion of noncurrent liabilities. Noncurrent liabilities decreased \$2.6 million as debt obligations were paid down. Further information about long-term liabilities can be found in Note F to the financial statements.

Statement of Revenues, Expenses and Changes in Net Position

The Statement of Revenues, Expenses, and Changes in Net Position is used to display the sources and uses of funds of the university during the fiscal year. This information must be viewed over a period of time to determine if the goals of the institution are being met. Public institutions will normally have an excess of operating expenses over operating revenues as state appropriations are considered non-operating revenues under generally accepted accounting principles.

Statement of Revenues, Expenses and Changes in Net Position		
(Thousands of Dollars)		
	Fiscal Year Ended June 30	
	2022	2021
Operating revenues	\$55,502	\$54,049
Employee compensation and benefits	(67,337)	(65,654)
Depreciation expense	(9,975)	(10,043)
Other operating expense	(44,215)	(32,691)
Operating Income (Loss)	(66,025)	(54,339)
Federal, state and local grants	39,790	22,093
State appropriations	28,880	28,341
On behalf payments, gifts, investments and interest exp.	982	490
Capital gifts		59
State appropriations for capital purposes	1,915	1,314
Change in Net Position	5,542	(2,042)
Net Position, beginning of year	156,625	158,667
Restatement of net position	0	0
Net Position, end of year	\$ 162,167	\$ 156,625

Northeastern State University
Management's Discussion and Analysis (Unaudited)
June 30, 2022

Operating revenue includes tuition, fees, state and federal grants and contracts and revenue generated by auxiliary units. Total operating revenue increased \$1.4 million in fiscal year 2022. Housing and food service increased \$.4 million, optometry by \$.5 million, federal and state grants by \$.3 million and other operating revenue increased \$.9 million.

The remaining changes in revenue was a combination of a decreased in student tuition and fees \$.7 million, and interest earned on student loans of \$.02 million.

The primary sources of non-operating revenue include federal and state grants related to financial aid and state appropriations. The increase of non-operating revenue totaled \$19.2 million in fiscal year 2022. This increase was a result of an increase in federal and state grant and contracts of \$17.7 million, gifts and contributions of \$1.7 million, state appropriations of \$.5 million, and decrease to interest expense of \$.1 million

The remaining difference are made up of a decrease to investment income of \$.4 million and loss on Perkin loans of \$.4 million.

The following is a graphical representation of the sources of NSU's revenue. State appropriations are 24% of total NSU revenue, student tuition and fees 30%, grants and financial aid revenue 33% and auxiliary operations and other sources make up the remaining 13%.

Operating expenses include employee compensation, student scholarships, depreciation, other necessary supplies and service expenses. For fiscal year 2022 operating expenses increased \$13.1 million. This change is a result of increases to scholarships and fellowships of \$6.53 million, supplies and materials of \$2.43 million, other operating expenses \$1.9 million, employee compensation of \$1.7 million, utilities of \$.5 million, and contractual services of \$.3 million. Remaining amount is made up of decreases to communication expenses of \$.2 million and depreciation of \$.07 million.

Change in net position reflects net income or loss for the year. The change in net income for fiscal year 2022 is an increase of \$5.5 million.

Northeastern State University
Management's Discussion and Analysis (Unaudited)
June 30, 2022

Statement of Cash Flows

The Statement of Cash Flows presents detailed information about cash receipts and disbursements of the university during the year. The statement is divided into five parts. The first shows the net cash used by the operating activities of the university. The second reflects cash flows from non-capital financing activities. The primary source of revenue for non-capital financing activities is from state appropriations. The third section is cash flows from investing activities, which shows the purchase, proceeds and interest received from investing activities. The fourth section deals with cash flows from capital and related financing

activities, which includes the acquisition and construction of capital and related items. The fifth and final section reconciles the net cash used to the operating income reflected on the Statement of Revenues, Expenses and Changes in Net Assets.

Statement of Cash Flows		
(Thousands of Dollars)		
	Fiscal Year Ended June 30	
	2022	2021
Cash provided (used) by		
Operating activities	\$(58,569)	\$(43,839)
Noncapital financing activities	71,293	51,373
Investing activities	285	765
Capital and related financing activities	(15,673)	(11,762)
Net Change in Cash	(2,664)	(3,463)
Cash, beginning of year	54,148	57,611
Cash, end of year	\$51,483	\$54,148

The net cash balance decreased \$2.6 million during fiscal year 2022. The majority of this decrease was due to an increase in capital and related financing activities.

Northeastern State University
Management's Discussion and Analysis (Unaudited)
June 30, 2022

Component Units

The University Foundation meets the criteria for inclusion as a discretely presented component unit of the university. The most recent financial statements of the University Foundation are included in this presentation under the heading *Component Unit*.

Economic Outlook

For the past two fiscal years, NSU budgeted \$3.4 million in unobligated reserves to cover the projected eight percent decline in enrollment/credit hours brought on by COVID-19. Unfortunately, enrollment was down an additional 5.2% credit hours in Fall 21 and 5.8% credit hours in Spring 22. This resulted in revenue losses and expenses were reduced in December and February to cover the losses. To eliminate the use of \$3.4 million in reserve dollars, all operating budgets were reduced by 5.2% in the initial stage of developing the FY23 Budget.

Our FY 23 budget includes an increase of \$999,035 in state appropriated funds. Of this amount \$480,959 is designated to meet Oklahoma's "Critical Workforce Development" needs in STEM fields of study. The STEM funds are considered "at-risk" and subject to re-allocation based on STEM credit hour and degree production over the next three academic years.

To meet our budget needs for FY23, we originally requested to increase tuition/fees by 4.2% (\$10.00 per credit hour). This request was revised after OSRHE limited all requests to 4.0% or lower. NSU's increase of 4.0% (\$9.50 per credit hour) translates to an increase of \$228.00 per year for a full-time (24 hours) Oklahoma resident undergraduate student. Even with this increase NSU's FY23 tuition cost, when compared to FY23 costs shared in discussions with the other presidents, will still be the second most affordable among RUSO institutions and will be third most affordable of the 13 public universities in Oklahoma. It is also worth noting that we are reducing the online fee from \$40 per credit hour to \$35 with a goal of eliminating this fee within the next three years. With most students taking some classes online, the net cost increase per hour is \$4.50. The elimination of the online fee is another priority for Student Government and the Budget Oversight Committee.

Note A--Summary of Significant Accounting Policies

Nature of Organization: Northeastern State University (the University) is a regional University operating under the jurisdiction of the Regional University System of Oklahoma (RUSO or the System) and the Oklahoma State Regents for Higher Education.

Reporting Entity: The University is one of six institutions of higher education in Oklahoma that comprise part of the RUSO, which in turn is part of the Higher Education component unit of the State of Oklahoma.

The Board of Regents has constitutional authority to govern, control and manage RUSO, which consists of six institutions and an administrative office. This authority includes but is not limited to the power to designate management, significantly influence operations, acquire and take title to real and personal property in its name, and appoint or hire all necessary officers, supervisors, instructors, and employees for member institutions.

Accordingly, the University is considered an organizational unit of RUSO reporting entity for financial reporting purposes due to the significance of its legal, operational, and financial relationships with the Board of Regents as defined in Section 2100 of the Governmental Accounting Standards Board (GASB) Codification of Governmental Accounting and Financial Reporting Standards.

Discretely Presented Component Units: Northeastern State University Foundation, Inc. (the University Foundation) is a component unit of the University under GASB 39 that should be discretely presented with the financial statements of the University. The University Foundation has a fiscal year ending December 31. The University is the beneficiary of the University Foundation. The Foundation is a separate legal entity with its own Board of Trustees. The University Foundation is administered to provide benefit to the University. The University Foundation uses all contributions, grants and other revenues to aid the University in charitable, benevolent, religious, educational, scientific and literary purposes.

Financial Statement Presentation: The University's financial statements are presented in accordance with the requirements of GASB Statement No. 34, *Basic Financial Statement and Management's Discussion and Analysis - for State and Local Governments*, and GASB Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities*. Under GASB Statements No. 34 and 35, the University is required to present a statement of net position classified between current and noncurrent assets and liabilities and deferred outflows and inflows of resources; a statement of revenues, expenses and changes in net position, with separate presentation for operating and nonoperating revenues and expenses; and a statement of cash flows using the direct method.

Northeastern State University
A Department of the Regional University System of Oklahoma
Notes to Financial Statements
June 30, 2022

Note A--Summary of Significant Accounting Policies (Continued)

Basis of Accounting: For financial reporting purposes, the University is considered a special-purpose government engaged only in business-type activities. Accordingly, the University's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant intra-agency transactions have been eliminated.

Cash Equivalents: For purposes of the statements of cash flows, the University considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Funds invested through the State Treasurer's Cash Management Program are considered cash equivalents.

Investments: The University accounts for its investments at fair value in accordance with GASB Statement No. 72, *Fair Value Measurement and Application*. In accordance with GASB Statement No. 40, *Deposit and Investment Risk Disclosures*, the University has disclosed its deposit and investment policies related to the risks identified in GASB Statement No. 40. Changes in unrealized gain (loss) on the carrying value of investments are reported as a component of investment income in the statements of revenues, expenses and changes in net position.

Restricted Cash and Investments: Cash and investments that are externally restricted to make debt service payments, maintain sinking or reserve funds, or to purchase capital or other noncurrent assets, are classified as restricted assets in the statements of net position.

Accounts Receivable: Accounts receivable consists of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty and staff, the majority of each residing in the State of Oklahoma. Accounts receivable also include amounts due from the federal government, state and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the University's grants and contracts. Accounts receivable are recorded net of estimated uncollectible amounts.

Inventories: Inventories are carried at the lower of cost or market on the first-in, first-out (FIFO) basis.

Capital Assets: Capital assets are recorded at cost at the date of acquisition, or acquisition value at the date of donation in the case of gifts. For equipment, the University's capitalization policy includes all items with a unit cost of \$2,500 or more, and an estimated useful life of greater than one year. Renovations to buildings, infrastructure, and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred.

Northeastern State University
A Department of the Regional University System of Oklahoma
Notes to Financial Statements
June 30, 2022

Note A--Summary of Significant Accounting Policies (Continued)

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 40 to 60 years for buildings, 20 to 30 years for infrastructure and land improvements, and 5 to 10 years for library materials and equipment. Lease assets are amortized over the life of the associated contract and the amortization is included in depreciation expense.

Unearned Revenue: Unearned revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year but related to the subsequent accounting period. Amounts received from grant and contract sponsors that have not yet been earned, unless due to timing requirements, will be considered deferred revenue. Grant and contract sponsor amounts received but not recognized due to timing requirements will be reported as a deferred inflow of resources.

Compensated Absences: Employee vacation pay is accrued at year-end for financial statement purposes. The liability and expense incurred are recorded at year-end as accrued vacation payable in the statements of net position, and as a component of compensation and benefit expense in the statements of revenues, expenses and changes in net position.

Leases: The University is a party as lessor and lessee for various noncancellable long-term leases of buildings and equipment. The corresponding lease receivable or lease payable, are recorded in an amount equal to the present value of the expected future minimum lease payments due or received, respectively, discounted by an applicable interest rate.

Noncurrent Liabilities: Noncurrent liabilities include (1) principal amounts of revenue bonds payable, notes payable, and capital lease obligations with contractual maturities greater than one year, (2) estimated amounts for accrued compensated absences and other liabilities that will not be paid within the next fiscal year, and (3) other liabilities including the federal portion of the Perkins Loan Program, that will not be paid within the next fiscal year.

Net Position: The University's net position is classified as follows:

Net investment in capital assets: The net investment in capital assets component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets.

Restricted net position: Restricted net position includes resources which the University is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties.

Northeastern State University
A Department of the Regional University System of Oklahoma
Notes to Financial Statements
June 30, 2022

Note A--Summary of Significant Accounting Policies (Continued)

Unrestricted net position: Unrestricted net position represents resources derived from student tuition and fees, state appropriations, and sales and services of educational departments and auxiliary enterprises. These resources are used for transactions relating to the educational and general operations of the University, and may be used at the discretion of the governing board to meet current expenses for any purpose. The included auxiliary enterprises, are substantially self-supporting activities that provide services for students, faculty and staff.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the University's policy is to first apply the expense towards restricted resources, and then toward unrestricted resources.

Income Taxes: The University, a Department of RUSO which is a political subdivision of the State of Oklahoma, is exempt from all federal income taxes under Section 115(1) of the Internal Revenue Code, as amended. However, the University may be subject to income taxes on unrelated business income under the Internal Revenue Code Section 511(a)(2)(B).

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The University generally uses an estimate based on municipal bond rate yield curves as the discount rate for leases unless the rate that the lessor/vendor charges is known.

Classification of Revenues: The University has classified its revenues as either operating or nonoperating revenues according to the following criteria:

Operating revenues: Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of scholarship discounts and allowances, (2) sales and services of auxiliary enterprises, net of scholarship discounts and allowances, (3) certain grants and contracts, and (4) interest on institutional student loans.

Nonoperating revenues: Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as gifts and contributions, and other revenue sources that are defined as nonoperating revenues by GASB No. 9 *Reporting Cash Flows of Proprietary Fund Accounting*, and GASB No. 34, such as state appropriations, certain governmental and other pass-through grants, and investment income.

Scholarship Discounts and Allowances: Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship discounts and allowances in the statements of revenues, expenses, and changes in net position. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the University and the amount that is paid by students and/or third parties making payments on the students' behalf.

Northeastern State University
A Department of the Regional University System of Oklahoma
Notes to Financial Statements
June 30, 2022

Note A--Summary of Significant Accounting Policies (Continued)

Certain governmental grants, such as Pell grants, and other federal, state or nongovernmental programs, are recorded as nonoperating revenues in the University's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the University has recorded a scholarship discount and allowance.

Deferred Inflows of Resources: Deferred inflows are the acquisition of net position by the University that are applicable to a future reporting period. At June 30, 2022, the University's deferred inflows of resources were comprised of deferred gains on the restructuring of certain long term debt.

Lease-related amounts are recognized at the inception of leases in which the University is the lessor and are recorded in an amount equal to the corresponding leases receivable plus certain additional amounts received from the lessee at or before the commencement of the lease term that relate to future periods, less any lease incentives paid to, or on behalf of, the lessee at or before the commencement of the lease term. The inflow of resources is recognized in a systematic and rational manner over the term of the lease.

Fiduciary Funds: Fiduciary Funds are used to report assets held in a trustee or agency capacity for third parties and therefore are not available to support University programs. The reporting focus is net position and changes in net position and uses accounting principles similar to proprietary funds.

Agency Funds: Agency Funds are used to report resources held by the University in a purely custodial capacity (assets equal liabilities). Agency fund assets and liabilities are recognized using the accrual basis of accounting. The University has one agency fund for the Oklahoma Higher Education Employee Interlocal Group (OKHEEI).

Note B--Deposits and Investments

Deposits: *Custodial credit risk* for deposits is the risk that in the event of a bank failure, the University's deposits may not be returned or the University will not be able to recover collateral securities in the possession of an outside party. Generally, the University deposits its funds with the Office of the State Treasurer (OST) and those funds are pooled with funds of other state agencies and then, in accordance with statutory limitations, are placed in financial institutions or invested as the OST may determine, in the State's name.

There is \$51,483,391 in cash and cash equivalents on deposit with the State Treasurer as of June 30, 2022. Of the \$51,483,391 on deposit with the State Treasurer, \$26,315,522 represents amounts held within *OK INVEST*, an internal investment pool. State Agencies and funds that are considered to be part of the State's reporting entity in the State's Comprehensive Annual Financial Report are allowed to participate in *OK INVEST*. Oklahoma statutes and the State Treasurer establish the primary objectives and guidelines governing the investment of funds in *OK INVEST*.

Northeastern State University
A Department of the Regional University System of Oklahoma
Notes to Financial Statements
June 30, 2022

Note B--Deposits and Investments (Continued)

Safety, liquidity, and return on investment are the objectives that establish the framework for the day-to-day *OK INVEST* management of funds with an emphasis on safety of the capital and the probable income to be derived while also meeting the State's daily cash flow requirements. Guidelines in the State Treasurer's Investment Policy address credit quality requirements, diversification percentages and the types and maturities of allowable investments. The specifics regarding these policies can be found on the State Treasurer's website at <http://www.ok.gov/treasurer/>. An evaluation of the use and purpose of the various State Agencies and funds participation in the internal investment pool has determined that the amount on deposit with *OK INVEST* are treated as demand accounts and reported as cash equivalents.

Interest rate risk is the risk that during periods of rising interest rates, the yield and market value of the securities will tend to be lower than prevailing market rates; in periods of falling interest rates, the yield will tend to be higher. *Credit/default risk* is the risk that an issuer or guarantor of a security, or a bank or other financial institution that has entered into a repurchase agreement, may default on its payment obligations. *Liquidity risk* is the risk that *OK INVEST* will be unable to pay redemption proceeds within the stated time period because of unusual market conditions, an unusually high volume of redemption requests, or other reasons.

U.S. Government securities risk is the risk that the U.S. government will not provide financial support to U.S. government agencies, instrumentalities or sponsored enterprises if it is not obligated to do so by law. Various investment restrictions and limitations are enumerated in the State Treasurer's Investment Policy to mitigate those risks; however, any interest in *OK INVEST* is not insured or guaranteed by the State of Oklahoma, the Federal Deposit Insurance Corporation or any other government agency.

Investments: Investment *credit risk* is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Generally, the University's investments are managed by the State Treasurer. In accordance with state statutes the State Treasurer may only purchase and invest in (a) obligations of the United States government, its agencies and instrumentalities; (b) prime banker's acceptances; (c) investment grade obligations of state and local governments; (d) money market funds; (e) collateralized or insured certificates of deposits; (f) negotiable certificates of deposits; (g) prime commercial paper; and (h) repurchase agreements. The University does not have a policy addressing credit risk.

Northeastern State University
A Department of the Regional University System of Oklahoma
Notes to Financial Statements
June 30, 2022

Note B--Deposits and Investments (Continued)

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments that are held for longer periods of time are subject to increased risk of adverse interest rate changes.

Neither the University nor state statutes limit investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates; however, the OST Investment policy limits the average maturity on its portfolio to four (4) years, with certain individual securities having more restrictive limits as defined in the policy. *Concentration of credit risk* is the risk of loss attributed to the magnitude of the University's investment in a single issuer. Neither the University's investment policy nor state statutes place limits on amounts that can be invested in any one issuer; however, the OST Investment Policy states that, with the exception of U.S. Treasury securities, no more than 50% of the State's total funds may be invested in a single security type or with a single financial institution, with diversification percentages being more restrictive on individual securities. *Custodial credit risk* for investments is the risk that, in the event of failure of the counterparty, the University will not be able to recover the value of its investments or collateral securities in the possession of an outside party. As of June 30, 2022, the University did not have any qualifying investments.

Note C--Accounts Receivable

Accounts receivable consisted of the following at June 30, 2022:

Student tuition and fees	\$ 2,156,811
Auxiliary enterprises and other operating activities	1,728,356
Federal, state, and private grants and contracts	1,223,234
Cancelled Perkins loans	<u>4,526,294</u>
	9,634,695
Less: allowance for doubtful accounts	<u>(65,163)</u>
Net accounts receivable	<u><u>\$ 9,569,532</u></u>

Note D--Loans and Leases Receivable

Loans Receivable: Student loans made through the Federal Perkins Loan Program (the "Program") comprise substantially all of the loans receivable at June 30, 2022. Under this program, the federal government provides funds for approximately 75% of the total contribution for student loans with the University providing the balance. Under certain conditions such loans can be forgiven at annual rates of 10% to 30% of the original balance up to maximums of 50% to 100% of the original loan. The federal government reimburses the University for the amounts forgiven. Amounts refundable to the U.S. Government upon cessation of the Program of \$4,524,000 at June 30, 2022, are reflected in the accompanying statements of net position as noncurrent liabilities.

Northeastern State University
A Department of the Regional University System of Oklahoma
Notes to Financial Statements
June 30, 2022

Note D--Loans and Leases Receivable (Continued)

As the University determines loans are uncollectible and not eligible for reimbursement by the federal government, the loans are written off and assigned to the U.S. Department of Education. The allowance for uncollectible loans only applies to University funded loans and the University portions of federal student loans, as the University is not obligated to fund the federal portion of uncollected student loans. The University has provided an allowance for uncollectible loans that, in management's opinion, is sufficient to absorb loans that will ultimately be written off.

At June 30, 2022 loans receivable consisted of the following:

Perkins loans receivable	\$ 420,820
Less: Allowance for uncollectible loans	<u>(16,169)</u>
Net loans receivable	<u><u>\$ 404,651</u></u>

Leases Receivable: The University as a lessor, has entered into lease agreements involving buildings. Leases of buildings have annual installments totaling \$7,438 with interest rates ranging from 1.3% to 1.9%, and due dates ranging from 2023 to 2046.

Future annual lease payments to be received are as follows:

Year Ending June 30:	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2023	\$ 68,489	\$ 15,844	\$ 84,333
2024	42,398	14,972	57,370
2025	35,782	14,388	50,170
2026	36,348	13,822	50,170
2027	36,922	13,247	50,169
2028-2032	193,556	57,292	250,848
2033-2037	209,352	41,496	250,848
2038-2042	226,437	24,411	250,848
2043-2047	194,384	6,295	200,679
	<u><u>\$ 1,043,668</u></u>	<u><u>\$ 201,767</u></u>	<u><u>\$ 1,245,435</u></u>

Capital Obligations:

Oklahoma Capital Improvement Authority

In November 2005, OCIA issued its OCIA Bond Issues, 2005 Series F and G. Of the total bond indebtedness, the Oklahoma State Regents for Higher Education allocated the University \$22,876,760 and \$96,640 for the Series 2005F and 2005G, respectively. Concurrently with the allocation, the University entered into an agreement with OCIA for those amounts. The agreement provides for the University to make specified monthly payments to OCIA over the terms of the agreements. The proceeds of the bonds and subsequent agreements are to provide for capital improvements at the University.

In 2014, the OCIA restructured the 2005F by issuing new bonds 2014 Series A. This restructuring was a partial refunding of the 2005F issue. The restructured agreement with OCIA secures the OCIA bond indebtedness and any future indebtedness that might be issued to refund earlier bond issues. The University's aforementioned agreement with OCIA was automatically restructured to secure the new bond issues.

During the year ended June 30, 2022, OCIA made interest payments totaling \$528,161 on behalf of the University for the 2014A and remaining 2005F issues. These on-behalf payments have been recorded as restricted state appropriations in the University's statements of revenues, expenses and change in net position.

Northeastern State University
A Department of the Regional University System of Oklahoma
Notes to Financial Statements
June 30, 2022

Note F--Long-Term Liabilities (Continued)

Capital Obligations (Continued)

Oklahoma Development Finance Authority Program

Series 2011A

The ODFA issued the ODFA Master Real Property Revenue Bonds, Series 2011A in the University's fiscal year that ended June 30, 2012. The Bonds were issued to fund capital improvements at several state colleges and universities in Oklahoma. ODFA allocated the Bonds' proceeds to colleges and universities in the form of financing agreements. The University's portion of this allocation was \$5,990,000 to fund the constructions of a new Multi-Purpose Events Center.

The agreement calls for monthly payments to ODFA in an amount that equals debt service requirements on the portion of the bonds used to finance this agreement. The final payment on the agreement is May 15, 2031. After payment of bond closing costs, the net proceeds were \$6,000,000 to the project fund. The University has spent all of the net proceeds in connection with the specified project.

In 2021, the Series 2011A was fully refunded with the issuance of the ODFA Master Real Property Revenue Bonds, Series 2020D in the amount of \$3,889,000. Total payments over the term of the agreement, beginning November 15, 2020, through May 15, 2031, will be \$4,288,075. Payments will be made monthly ranging from \$33,398 to \$38,565.

Series 2014A - Equipment Energy

In June 2014, the University entered into an obligation Series 2014A in the amount of \$4,139,000 to refinance the ODFA Master Revenue Bond Series 2004A. Total payments over the term of the agreement, beginning January 23, 2014 through May 15, 2024, will be \$4,967,513. Payments will be made monthly ranging from \$41,089 to \$46,000.

Series 2014A - Housing

In February 2014, the University entered into an obligation Series 2014A in the amount of \$14,517,000 for the construction of student housing. Payments over the term of the agreement, including interest, total \$21,055,975. Payments began March 15, 2014, and go through May 15, 2033, and will range from \$91,009 to \$95,407 monthly. As of June 30, 2022, the University has approximately \$0 of its allotment available to be drawn.

Note F--Long-Term Liabilities (Continued)

Capital Obligations (Continued)

Oklahoma Development Finance Authority Program (Continued)

Series 2014B

In February 2014, the University entered into an obligation Series 2014B in the amount of \$11,115,000 to refinance Cherokee County Economic Development Authority 2003 Series A tax-exempt Revenue Bonds and Series B taxable Revenue Bonds. Payments over the term of the agreement, including interest, total \$15,604,957. Payments began March 20, 2014, and go through November 15, 2033, and will range from \$65,604 to \$69,348 monthly.

Series 2016B

In June 2016, the University entered into an obligation Series 2016B in the amount of \$4,509,000 to refinance Board of Regents of Oklahoma Colleges Northeastern State University Revenue Bonds Series 2004. Payments over the term of the agreement, including interest, total \$5,246,160. Payments began July 15, 2016, and go through May 15, 2024, and will range from \$58,251 to \$54,388 monthly.

Series 2020D

In November 2020, the University entered into an obligation Series 2020D in the amount of \$3,889,000 to refinance the ODFA Revenue Bond Series 2011A. Total payments over the term of the agreement, beginning November 15, 2020, through May 15, 2031, will be \$4,288,075. Payments will be made monthly ranging from \$33,398 to \$38,565.

Future minimum lease payments under the University's capital lease obligations to OCIA and ODFA are as follows:

Year Ending June 30:	Principal	Interest	Total
2023	\$ 3,710,961	\$ 1,280,302	\$ 4,991,263
2024	3,755,089	1,140,401	4,895,490
2025	2,817,212	996,779	3,813,991
2026	2,912,867	901,367	3,814,234

2027	32,007	137	32,144
	<u>\$ 2,006,892</u>	<u>\$ 35,381</u>	<u>\$ 2,042,273</u>

Note G--Retirement Plans

The University's academic and nonacademic personnel are covered by various retirement plans. The plans available to University personnel include the Oklahoma Teachers' Retirement System (OTRS), which is a State of Oklahoma public employees retirement system, the Supplemental Retirement Annuity (SRA), a single employer defined benefit pension plan available to employees hired prior to July 1, 1995, and a defined contribution 403(b) plan. Personnel may also be eligible to participate in the Other Post-Employment Insurance (OPEB) plan, as described further in Note H. The University does not maintain the accounting records, hold the investments for, or administer these plans.

Northeastern State University
A Department of the Regional University System of Oklahoma
Notes to Financial Statements
June 30, 2022

Note G--Retirement Plans (Continued)

The accounting and financial reporting for OTRS Pension, OTRS OPEB, the SRA, and the single employer trusted and non-trusted OPEB plans are recorded at the reporting entity level in the Regional University System of Oklahoma financial statements. That report may be obtained by writing to the Regional University System of Oklahoma, 3555 N.W. 58th Street, Suite 320, Oklahoma City, Oklahoma 73112, or by calling (405) 924-8817.

All payments made to these plans by the University are accounted for as compensation expense in the accompanying financial statements.

The application of GAAP at the departmental level does not include certain liabilities incurred by the System as a whole. Those liabilities relate to the participation of System employees in the Oklahoma Teachers Retirement System, the Supplemental Retirement Plan, and the Postemployment Healthcare Plan. The accounting and reporting of these can be located in the financial statements of RUSO.

Oklahoma Teachers' Retirement System (OTRS)

Plan Description: The University contributes to the Oklahoma Teachers' Retirement System (OTRS), a cost-sharing multiple-employer defined benefit pension plan and defined benefit OPEB plan sponsored by the State of Oklahoma. OTRS provides defined retirement benefits based on members' final compensation, age and term of service. In addition, the retirement program provides for benefits upon disability and to survivors upon the death of eligible members. The plan also provides a health insurance subsidy for retirees in an amount of \$100 to \$105 per month. The benefit provisions are established and may be amended by the legislature of the State of Oklahoma. Title 70 of the Oklahoma Statutes, Sections 17-101 through 116.9, as amended, assigns the authority for management and operations of the Plan to the Board of Trustees of OTRS. OTRS is not required to provide for a cost of living adjustment. OTRS issues a publicly available financial report that can be obtained at www.ok.gov/TRS.

Funding Policy: The University is required by state statute to contribute a fixed percentage of annual compensation on behalf of active members. The employer contribution rate, as determined by state statute, was 8.55% for 2022, 2021, and 2020, and was applied to annual compensation. This single rate is allocated by OTRS to fund both the pension and OPEB benefits.

Employees' contributions are also determined by state statute. For all employees, the contribution rate was 7% of covered salaries and fringe benefits in 2022, 2021, and 2020. For compensation in excess of \$25,000, the employee's contributions are paid directly by the University to the OTRS.

The University's contributions to the OTRS for the years ended June 30, 2022, 2021, and 2020, were approximately \$4,092,000, \$6,184,000, and \$6,206,000, respectively, equal to the required contributions for each year. These contributions included the University's statutory contribution and the share of the employee's contribution paid directly by the University.

Northeastern State University
A Department of the Regional University System of Oklahoma
Notes to Financial Statements
June 30, 2022

Note G--Retirement Plans (Continued)

The State of Oklahoma is also required to contribute to the OTRS on behalf of the participating employers. For 2022, the State of Oklahoma contribution was 5% of state revenues from sales and use taxes and individual income taxes, to the OTRS on behalf of participating employers. These amounts and other system-wide related amounts are reported in the RUSO financial statements and not at the individual department level.

Supplemental Retirement Annuity (SRA)

Plan Description: The University's SRA plan is a single employer, defined benefit pension plan administered by the University's Board of Regents. The SRA was established by the University's Board of Regents to provide supplemental retirement and death benefits to University employees who were hired prior to July 1, 1987, or to those eligible employees' beneficiaries. Effective December 1, 2002, the SRA was amended to provide supplemental retirement and death benefits to University employees who were hired between July 1, 1987 and June 30, 1995. Effective October 1, 2003, the SRA plan was changed to eliminate the TIAA offset in the benefit calculation. The authority to amend the SRA's benefit provisions rests with the University's Board of Regents. The SRA is included in the financial report of the RUSO reporting entity, and does not issue separate, stand-alone financial statements.

Funding Policy: The authority to establish and amend eligible employees' and employer contribution obligations to the SRA rests with the University's Board of Regents. Eligible employees are not required to make contributions to the SRA. The University is required to contribute to the SRA an actuarially determined amount on an annual basis. The plan currently has adopted a funding policy to achieve a 100 percent funding level by December 1, 2030.

The University's contributions to the SRA for the years ended June 30, 2022, 2021, and 2020, were approximately \$1,415,000, \$1,100,000, and \$1,012,000, respectively.

Defined Contribution Plan

The University also has a defined contribution 403(b) plan (DCP) available to full-time employees. The DCP is administered by the RUSO System, and the plan provisions are established and may be amended by the Board of Regents. Plan members may make voluntary contributions in accordance with IRS regulations. The University has no contribution requirements, and no contributions were made during the years ended June 30, 2022, 2021, and 2020. However, the University made no contributions in 2022, 2021, and 2020.

Northeastern State University
A Department of the Regional University System of Oklahoma
Notes to Financial Statements
June 30, 2022

Note H--Other Post-Employment Insurance Benefits

Trusted Plan

Plan Description: The University's postemployment healthcare plan is a single employer defined benefit plan administered by the Board of Regents. The plan provides medical and life insurance benefits to eligible retired employees until age 65. A retiring employee must have been employed full-time in the System for not less than ten years immediately preceding the date of retirement; been a member of the OTRS during that time; and elected to receive a vested benefit under the provision of the Oklahoma Teachers' Retirement System. As of June 30, 2022, there were 322 active participants in the plan. The retirement insurance program was adopted by the Board of Regents in 1985.

In March of 2008, the Retiree Medical Trust for Regional University System of Oklahoma was established to hold assets and pay benefits on behalf of the University's postemployment healthcare plan, and was administered by The Bank of Oklahoma, N.A. The plan is included in the financial report of the RUSO reporting entity.

That report may be obtained by writing to RUSO, 3555 N.W. 58th Street, Suite 320, Oklahoma City, Oklahoma 73112, or by calling (405) 924-8817.

Funding Policy: The contribution requirements of the University are established and may be amended by the Board of Regents. The University is required to contribute the actuarially determined employer contribution amount in accordance with the parameters of GASB Statement 75. The current year amount is approximately \$344,000.

The University's contributions to the plan for the years ended June 30, 2022, 2021, and 2020, were approximately \$344,000, \$214,000, and \$400,000, respectively.

Non-Trusted

Plan description – The University's defined benefit OPEB plan, Retiree Benefits Plan, provides OPEB to eligible retirees and their dependents. The RUSO Board of Trustees has the authority to establish and amend benefit provisions. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

Benefits provided – The University provides medical, dental, and vision benefits to eligible retirees and their dependents through the Oklahoma Higher Education Employee Interlocal Group. The retiree pays the full contribution rate for the retiree's coverages and for any other elected dependent dental and vision coverages. The medical rates for pre-65 retirees are the same as the rates for active employees so the benefit being provided is an implicit rate subsidy. Retirees and dependents age 65 or older are provided a Medicare supplement that is not subsidized by the College.

Note I--Funds Held In Trust By Others

Beneficial Interest in State School Land Funds: The University has a beneficial interest in the "Section Thirteen Fund State Educational Institutions" and the "New College Fund" administered by the Commissioners of the Land Office as trustees for the various educational institutions entitled thereto. The University has the right to receive annually 3.7% of the distributions of income produced by "Section Thirteen Fund State Educational Institutions" assets and 100% of the distributions of income produced by the University's "New College Fund". The University received approximately \$1,013,000 during the year ended June 30, 2022, which is restricted to the construction or acquisition of buildings, equipment, or other capital items. These amounts are recorded as state appropriations for capital purposes in the statement of revenues, expenses and changes in net position. State law prohibits the distribution of any corpus of these funds to the beneficiaries.

The market value of the total trust reserve for the University, held in trust by the commissioners of Land Office, was approximately \$19,081,000 at June 30, 2022.

Oklahoma State Regents Endowment Trust Fund: In connection with the Oklahoma State Regents' Endowment Program (the Endowment Program), the State of Oklahoma has matched contributions received under the program. The state match amount, plus any retained accumulated earnings, totaled approximately \$2,568,000 at June 30, 2022, and is invested by the Oklahoma State Regents on behalf of the University. The University is entitled to receive an annual distribution of 5% of the market value at year end on these funds. As legal title of the State Regents matching endowment funds is retained by the Oklahoma State Regents, only the funds available for distribution, approximately \$103,000 at June 30, 2022, have been reflected as assets in the statement of net position. In connection with the program, private contributions totaling approximately \$956,000 as of June 30, 2022, are being held by the University Foundation for the benefit of the University. Additional private contributions of approximately \$707,000 as of June 30, 2022, are held by the Oklahoma State Regents on behalf of the University. As legal title rests with the Oklahoma State Regents, these funds are not included in the accompanying financial statements.

Additional amounts are being managed and held by the Oklahoma State Regent's for Higher Education for the Endowed Chair and Herb Rozell endowments in the amount of \$956,000 on behalf of the University and is reported as a receivable in the accompanying financial statements.

Note J--Related Party Transactions

The University is beneficiary of the Northeastern Oklahoma Public Facilities Authority (the Authority), a public trust created under Title 60, Section 176, of the Oklahoma statutes. The University received \$180,000 for the year ended June 30, 2022.

Northeastern State University
A Department of the Regional University System of Oklahoma
Notes to Financial Statements
June 30, 2022

Note K--Commitments and Contingencies

The University had outstanding commitments under construction contracts of approximately \$2,709,000 at June 30, 2022.

The University participates in a number of federally assisted grant and contract programs. These programs are subject to financial and compliance audits by the grantor or their representatives. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grant. The amount of expenditures that may be disallowed by the granting agencies cannot be determined at this time, although it is believed by the University that the amount, if any, would not be significant.

The University began participation in the Federal Direct Loan Program on July 1, 2010. For the year ended June 30, 2022, \$27,600,007 of Direct Loan funds were disbursed to University students.

During the ordinary course of business, the University may be subjected to various lawsuits and civil action claims. Management believes that resolution of any such matters pending at June 30, 2022, will not have a material adverse impact to the University.

Note L--Risk Management

The University is exposed to various risks of loss from torts; theft of, damage to, and destruction of assets; business interruptions; employee injuries and illness; natural disasters; and employee health, life, and accident benefits. Commercial insurance coverage is purchased for claims arising from such matters other than torts, property, and workers' compensation. Settled claims have not exceeded this commercial coverage in any of the three preceding years.

The University, along with other state agencies and political subdivisions, participates in the State of Oklahoma Risk Management Program which is a public entity risk pool currently operating as a common risk management and insurance program for its members. The University pays annual premiums to the pools for tort, property, and liability insurance coverage. The Oklahoma Risk Management Pool's governing agreement specifies that the pool will be self-sustaining through member premiums and will reinsure through commercial carriers for claims in excess of specified stop-loss amounts.

The University also participates in the College Association of Liability Management (CALM) Workers' Compensation Plan for its workers' compensation coverage. CALM is an Interlocal Cooperative Act Agency that was organized to provide workers' compensation insurance coverage for participating colleges and universities through CompSource Mutual. CALM is a political subdivision of the State of Oklahoma and is governed by a board of trustees elected from members of the participating colleges and universities.

Note M--Northeastern State University Foundation, Inc.

The following are significant disclosures of Northeastern State University Foundation, Inc.:

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fair Value Measurements: The Foundation accounts for its financial assets and liabilities in accordance with ASC 820.10. This codified standard defines fair value measurement based on an exit price. An exit price, the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The codified standards also establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels:

- Level 1: Quoted prices in active markets for identical assets or liabilities. These include, but are not limited to, cash and cash equivalents, common and preferred stocks, and mutual funds;
- Level 2: Inputs that are derived principally from or corroborated by observable market data. These include but are not limited to government agency issues, corporate bonds and municipal securities;
- Level 3: Inputs that are unobservable and significant to the overall fair value measurement. These include but are not limited to non-public common stocks.

Financial assets and liabilities are carried at fair value on a recurring basis and therefore currently subject to the codified standard which include investments and beneficial interest in assets, if any, held by others. All financial instruments of the Foundation are valued using inputs qualifying as Level 1 and Level 2 in the above-defined hierarchy.

INVESTMENTS

Investments are composed of cash equivalents with maturity greater than three months, stocks, bonds and mutual funds investing in debt and equity securities and are carried at fair value. See the explanation of fair value measurements included in the Summary of Significant Accounting Policies. These investments are overseen by investment advisors. The advisors are provided with the investment policy adopted by the Board of Trustees and directed to follow that policy. Additionally, the Foundation maintains an investment committee that provides oversight with regard to the investments.

Northeastern State University
A Department of the Regional University System of Oklahoma
Notes to Financial Statements
June 30, 2022

Note M--Northeastern State University Foundation, Inc. (Continued)

INVESTMENTS (Continued)

Investments consist of the following at December 31, 2021:

Description	Level 1	Level 2	Level 3	Total
Equity funds	\$ 28,070,596	\$ -	\$ -	\$ 28,070,596
Fixed income funds	13,481,715	800,000	-	14,281,715
Cash and equivalents	372,870	-	-	372,870
Alternative investments	909,337	-	-	909,337
Total	<u>\$42,834,518</u>	<u>\$ 800,000</u>	<u>\$ -</u>	<u>\$43,634,518</u>

(The Foundation has no liabilities measured at fair value on a recurring basis.)

The Foundation's overall investment objective is "growth and income". The intent of the objective is to provide both current income and future growth to accommodate the Foundation's spending policy plus normal inflation; thereby, preserving the constant dollar value and purchasing power of the Foundation for future generations. Investment performance is judged over a three to five year time frame. The goal of each asset class is to achieve the total return of its benchmark while maintaining a risk level less than that of the benchmark. The overall goal for the Foundation is to achieve a 5% annual real rate of return after inflation.

The Foundation aims for the equity investments portion of its portfolio to constitute a minimum of 50% and a maximum of 70% of total endowment assets. The fixed income portion is expected to constitute a minimum of 30% and a maximum of 50% of total endowment assets. The alternative investment portion is expected to constitute no more than 15% of total endowment assets. In order to achieve these goals, the investment committee meets with the investment advisors at least once a year. The investment advisors are required to provide periodic statements reporting transactions involving fund assets and current fund asset values. The investment committee reports on the performance and holdings of the fund three times a year to the board.

The Foundation allocates investment return only on endowment funds. No investment return is allocated on custodial or pass through accounts. The return on investment attributable to individual endowment accounts is allocated to the account annually. An annual service fee is charged to each individual endowment account and this fee is transferred to unrestricted funds. The service fee rate is 1.5%.

Northeastern State University
A Department of the Regional University System of Oklahoma
Notes to Financial Statements
June 30, 2022

Note M--Northeastern State University Foundation, Inc. (Continued)

INVESTMENTS (Continued)

Generally, income generated from investments, regardless of restrictions, is available for either general use or restricted use.

The Foundation makes available for spending each year 5% of the average of five market values of its total endowment - the value six months before the beginning of the fiscal year, the value 18 months before the beginning of the year, the value 30 months before the beginning of the year, the value 42 months before the beginning of the year and the value 54 months before the beginning of the year. Individual endowments must have been placed with the Foundation at least six months prior to the beginning of the fiscal year to be eligible to participate for that year. Eligible individual endowments share in the amount available to be spent on a pro rata basis.

ENDOWMENT DISCLOSURES

The Foundation's endowment consists of 306 individual donor-restricted funds which are managed and controlled by the Foundation and are primarily established for scholarships, programs, or capital projects. As required by GAAP, net position associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law: The Board of Trustees of the Foundation has interpreted the State Prudent Management of Institutional Funds Act (SPMIFA) as requiring the preservation of the fair value of the original gift on the gift date of the donor- restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as permanently restricted net position (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. In accordance with SPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds.

- (1) The duration and preservation of the fund
- (2) The purposes of the organization and the donor-restricted endowment fund
- (3) General economic conditions
- (4) The possible effect of inflation and deflation
- (5) The expected total return from income and the appreciation of investments
- (6) Other resources of the organization
- (7) The investment policies of the organization

ENDOWMENT DISCLOSURES (Continued)

Spending Policy and How the Investment Objectives Relate to Spending Policy: The Foundation has a policy of appropriating for distribution each year amounts up to, but not to exceed 4.25% of market value averaged over the last five years. Since the Foundation has a policy of designating unrestricted funds each year for investment, it feels that this policy protects the purchasing power of the endowment. In light of current market fluctuations and the future needs of the Foundation, it evaluates the spending policy annually to ensure that it remains in accordance with the long-term objectives of the Foundation.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with Government Auditing Standards

Board of Regents
Regional University System of Oklahoma
Northeastern State University
Oklahoma City, Oklahoma

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Northeastern State University (the University), a department of the Regional University System of Oklahoma (RUSO), which is a component unit of the State of Oklahoma, as of and for the year ended June 30, 2022 and the related notes to the financial statements, which collectively comprise the University's basic financial statements and have issued our report thereon dated October 31, 2022

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the University's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Northeastern State University's (the University) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have direct and material effect on each of the University's major federal programs for the year ended June 30, 2022. The University's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Northeastern State University complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the University and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the University's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the University's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the University's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the University's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the University's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the University's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis.

Report on Internal Control Over Compliance (Continued)

A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, each discretely presented component unit, each major fund, and the aggregate remaining fund information of the University as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the basic financial statements of the University. We issued our report thereon dated October 31, 2022, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the University's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements and certain additional procedures including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

Northeastern State University
A Department of The Regional University System of Oklahoma
Notes to Schedule of Expenditures of Federal Awards
For the Year Ended June 30, 2022

Note A: Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of Northeastern State University under programs of the federal government for the year ended June 30, 2017. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Northeastern State University, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Northeastern State University.

Notes B: Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the (identify basis of accounting) basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Northeastern State has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

Note C: Federal Direct Student Loan Program

The federal student loan programs listed subsequently are administered directly by Northeastern State University, and balances and transactions relating to these programs are included in Northeastern State University's basic financial statements. Loans outstanding at the beginning of the year and loans made during the year are included in the federal expenditures presented in the Schedule. The balance of loans outstanding at June 30, 2022 consists of:

<u>CFDA</u> <u>Number</u>	<u>Program Name</u>	<u>Outstanding Balance</u> <u>at June 30, 2022</u>
84.038	Federal Perkins Loan	\$420,820

Schedule of Findings and Questioned Costs
Year Ended June 30, 2022

Summary of Auditor's Results

1. The opinion expressed in the independent auditor's report was:

☒ Unmodified ☐ Qualified ☐ Adverse ☐ Disclaimed

2. The independent auditor's report on internal control over financial reporting described:

Significant deficiencies ☐ Yes ☒ None reported

Material weaknesses? ☐ Yes ☒ No

3. Noncompliance considered material to the financial statements was disclosed by the audit?

☐ Yes ☒ No

4. The independent auditor's report on internal control over compliance for major federal awards programs disclosed:

Significant deficiencies? ☐ Yes ☒ None reported

Material weaknesses? ☐ Yes ☒ No

5. The opinion expressed in the independent auditor's report on compliance for major federal awards was:

☒ Unmodified ☐ Qualified ☐ Adverse ☐ Disclaimed

6. The audit disclosed findings required to be reported by the Uniform Guidance?

☐ Yes ☒ No
