Results

If you have Save Results checked in the Settings tab, you can view the form submissions on this page. In the Settings tab you can also specify which fields you want to view in the results columns. In the results you can Edit, View, and Print the submissions. If you edit the submission you can also delete a submission.

			Item	Last Name	Email	Problem Description (Please describe in detail)	Building	Room
			Melissa Cloud 11 minutes ago	Cloud	cloudm@nsuok.edu	Testing Form	South Leoser	329

 Export TAB

 Cancel

 Delete All Items

You can also export the results, if you have Save Results checked in the Settings tab. The export will create a TAB separated file which you can easily import into Excel or other spreadsheets.

You can delete all results. This will also reset stats on the Statistics tab. Deleted submissions cannot be recovered.

Submit Results

You can edit Submit Results.

If you want to view the results at a later time or export them, then you need to save the results. If you only want to email the completed form information, then you don't need to save the results.

Save Results

Result Column 1
 You can specify which fields you want to see under the Results section.

Result Column 2

Result Column 3

Result Column 4

Result Column 5

After Submit Action

Submit Actions allow you to Email or execute SQL when a form is submitted.

Submit Action
 What should happen after the user submits a form

Thank You Message
 You can edit the Thank You Message, but it does require HTML code.
 Contact Web Communications via the Web Request Form if you need assistance.

```
<p>Thank you for submitting a maintenance request to universit housing. We received your reque please feel free to contact our of by phone at 918-444-4700 or by email at <a href="mailto:housing@nsuok if you have any further questions concerns. If this is an emergency please contact your hall staff for
```

After a form is submitted this message will display.

Print Form
 After form is submitted, it will open a new window to print.
