

American Indian Scholar Profile

Alyssa Quay Hosey, a citizen of the Delaware Tribe of Indians from Catoosa, Oklahoma, graduated from Northeastern State University this past May with a Bachelor of Science in psychology and a minor in biology and chemistry.

Hosey's family valued education with several members who were either lifelong learners or educators.

"My great grandfather and grandma were alumni of NSU and my grandma was a teacher at Catoosa for many years," she said.

"My family shared their passion for education with me at a young age. My uncle is what I like to call a professional student. When I was young instead of toys as gifts he would buy me books and we would read together. My family is the reason I constantly yearn for more knowledge."

The family history at NSU is one of the main reasons she chose the university as her home.

While at NSU she was involved in the psychology club and was the founder and first president of the Native American Student Association on the Broken Arrow campus.

"I noticed the lack of Native representation that was on the Broken Arrow campus compared to the representation on the Tahlequah campus, which you know, is kind of expected just with the fact that it's the main campus," Hosey said. "We didn't have an organization or anything like that on the BA campus. We have a lot of statistics against us as as Indigenous people going into school, for instance, just in high school alone, the dropout rate for natives is double the national average."

Hosey noted that it can be intimidating for Native Americans to go to school, especially those from reservations and rural areas.

"In Tahlequah, it is like a family," she said. "I wanted to create another family for the Native students in BA."

The goal of the organization is to help Indigenous students feel comfortable and supported and to be of service in cultural and community activities.

"It's a place to stay connected, discuss how we are feeling, and also a support system to help us accomplish our goals."

Another activity she was involved in is Miss Native American NSU. Hosey says that she was too timid to sign up right away. It was the support and encouragement of Cheyhoma Dugger, former Miss NANSU delegate and mentor at the Native American Support Center, that led her to submit her information and participate in the competition, which she then won.

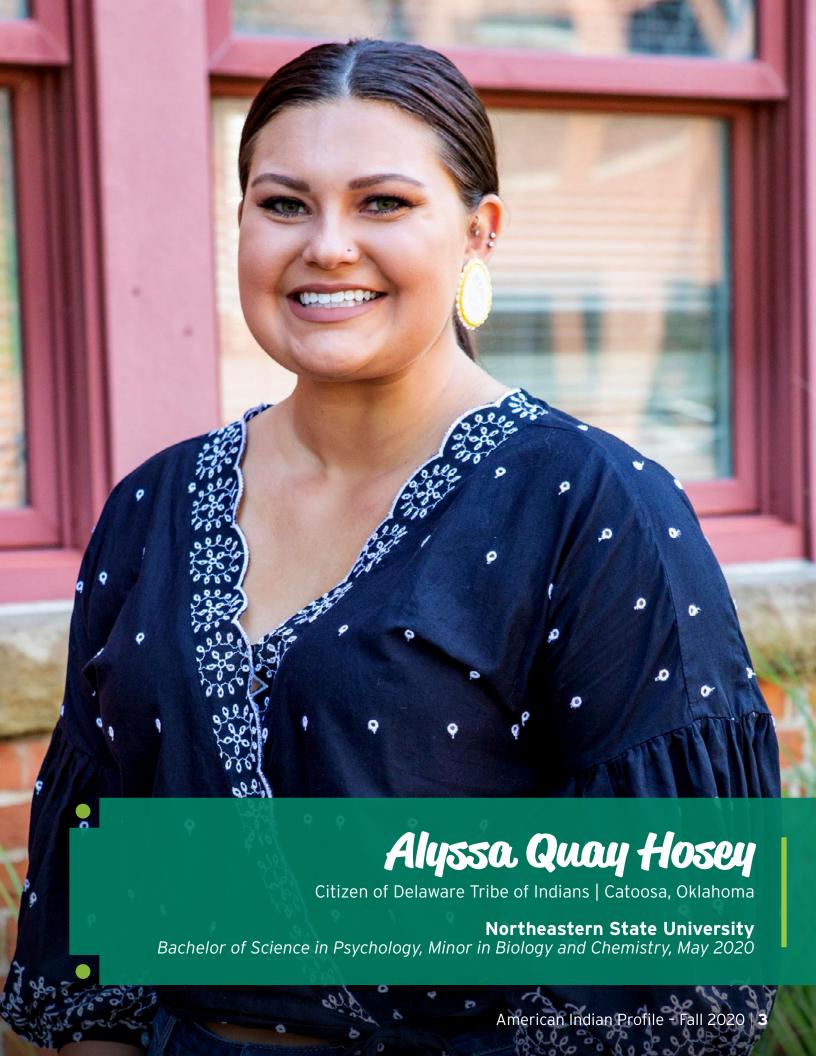

"A pageant was totally out of my comfort zone," Hosey said. "Participating and becoming Miss Native American NSU changed me for the better. It made me stronger and more confident as an individual and a Native woman. Now I can get up in front of anyone and speak on anything that needs to be spoken about, and I am grateful."

Hosey wants to continue her education and work towards being an occupational therapist.

"I want to serve Native communities," she said. "In looking closer at options, I realized there aren't many occupational therapy programs within Native providers. It will be a challenge but I would love to be the person to give the community that therapy opportunity."

When asked what her advice would be to new university students she said to choose a school that makes you feel comfortable, but also pushes you past your usual boundaries.

"Step outside your comfort zone," she said. "Not enough to be unhappy, but enough to grow. Northeastern State was that perfect place for me."

James Wagnon

Citizen of Cherokee Nation | Tahlequah, Oklahoma

Northeastern State University Master of Science in Health & Kinesiology, May 2020

American Indian Scholar Profile

James Wagnon, a Cherokee citizen member, grew up in Tahlequah and attended Seguoyah High School, a school for Native American students. He says that although the high school did push for higher education, he, as a young Indigenous person, could not think that far ahead.

Wagnon is a first-generation college student, and his mom desperately wanted him to get a college education.

"During my junior year I started hearing these discussions of different careers, opportunities and pathways people can take. That is when I really started considering higher education."

Wagnon says he wanted to do everything. He began his journey at the University of Oklahoma by focusing on biology and pre-med studies. He was working as a lab assistant and also an emergency medical technician and says he got to see a lot of the inner workings of the system.

"I couldn't comprehend putting a price on saving a human life," he said. "I realized that I couldn't save everybody."

While he continued to pursue his higher education and figure out what he wanted to do with his career, he would travel back home and mentor students at Seguovah and Oaks Mission, a home for Native American children. There, he shared the benefits of higher education and the opportunities out in the world.

After he finished at OU he was missing his community so he traveled back to Tahleguah to be with family. While there, he decided to pursue his Master of Science in health & kinesiology at Northeastern.

"I've met so many lifelong friends at NSU," he said. "The community is amazing. I tell people all the time, that I've met the people I will know for the rest of my life."

Wagnon was involved in many Native American organizations at NSU, including the American Indigenous Business Leaders and Sigma Nu Alpha Gamma, a Native American fraternity.

"We served the community throughout each semester," he said. "We assembled benches for the Cherokee Nation Heritage Center and worked in the Tahleguah Community

Garden donating traditional Cherokee foods to elders.".

"I love helping people and I ultimately think that's what I'm here for, is to be of service," he said.

Wagnon credits his professors at NSU with helping him stay grounded and focused on the goal.

"They were able to help me break down my goals," he said. "They helped me find resources and looked for ways to make things happen. They were the epitome of support."

While professors encouraged educational growth, the Center for Tribal Studies fostered cultural growth.

"The people I interacted with from the Center for Tribal Studies were always expanding my knowledge of my cultural identity," he said. "From knowing the basics such as history and ceremony information, to bringing in elders to teach us the language and songs, we were always learning something new."

He says the financial and emotional burdens of higher education are well known, but the cultural burden is perhaps less known.

"Coming together at the Center for Tribal Studies really made a difference," Wagnon said. "Being able to joke around, hang out, give each other car rides, and just having that community and support made all the difference. Having different tribes within our support group constantly expanded our understanding of each other."

With the goal of serving people, Wagnon has continued his higher education at OU, working towards completing the Adult & Higher Education Doctoral Program.

"My goal is to serve Indigenous students in any capacity," he said.

Wagnon married his high school love, Mariah, and they had a daughter at the beginning of his master's studies.

About

THE UNIVERSITY

Northeastern State University is a comprehensive regional university that prepares students to succeed as global citizens by providing exceptional undergraduate and graduate programs, along with the only Doctorate of Optometry offered in Oklahoma (one of only 23 nationwide) and the only Bachelor of Arts degree in Cherokee Education in the nation.

HISTORY

Northeastern was founded in 1846 as the Cherokee National Female Seminary, which opened in 1851. On March 6, 1909, the Oklahoma Legislature purchased the Seminary from the Cherokee Nation, and the following September classes began at the newly formed Northeastern State Normal School. In 2009, the NSU Centennial Celebration highlighted the university's 100 years as a state institution and dedicated a monument to the preeminent Cherokee scholar, Sequoyah.

CENTER FOR TRIBAL STUDIES

The Center for Tribal Studies, founded in 1990, is a resource for bridging communication and interaction between tribal nations and the university. Within the context of American Indian higher education, the Center collaborates with other campus entities in program development, strategic planning, research guidance, student engagement and scholarly activities. Northeastern State University is a destination of choice for American Indian education, and the diverse campus culture nurtures a strong sense of community for Native students. Through educational leadership, cultural knowledge and professional development among students, scholars emerge - many of whom will serve in professions benefiting tribal governments and Indigenous communities.

THE NATIVE AMERICAN SUPPORT CENTER (NASC)

The Native American Support Center (NASC) is a federally funded, five year grant program which seeks to increase Native American students' retention and completion of higher education by providing early alert and intervention/ referral services to at-risk Native students as well as a supportive community where they can receive academic advising, personal and academic coaching, tutoring, and mentoring. The Native American Support Center main office is located on the 2nd floor of the John Vaughan Library, with satellite offices on the Broken Arrow and Muskogee campuses.

CHEROKEE LANGUAGE DEGREE PROGRAMS

Unique to Northeastern State University, the Bachelor of Arts in Cherokee Language Education is the only American Indian language education degree available in the United States with a curriculum leading to state certification for teachers. Since 2005, the program has brought together university, global and local interests as part of a plan to strengthen the Cherokee language for future generations. In 2009, a bachelor's degree in Cherokee Cultural Studies was added as an option to study language along with other aspects of cultural studies for non-teachers. A Cherokee Studies minor is also available. With alumni now employed at universities and at the Cherokee Language Immersion School, NSU graduates play a vital role in language revitalization.

SYMPOSIUM ON THE AMERICAN INDIAN

The 48th Annual Symposium on the American Indian is scheduled to take place April 12-17, 2021, focused on the theme, Visionaries of Indian Country. American Indians carry with them the knowledge, traditions and language of their ancestors as they serve as leaders within their family, Tribe and community. These visionaries are not just focused on the here and now, but are cognizant of how decisions made today will impact future generations. The 7th generation concept is a way of life for many Indigenous people, a method of integrating the past, present and future. The visionaries of Indian Country are vital to the preservation and sustainability of our languages, community, environment and sovereignty. Keynote speakers include Mark Trahant (Shoshone-Bannock), editor of Indian Country Today and Board Chair for Vision Maker Media; Adrienne Keene (Cherokee), Assistant Professor of American and Ethnic Studies at Brown University; and Kainoa Bryan Emernate (Õiwi Hawai'i), founder of Hãlau 'Õlelo, an online learning school for the Hawaiian Language.
